Summary

Software Engineer with hands-on experience in building real-world applications using C++, Python, JavaScript, React.js, Node.js, and REST APIs. Strong foundation in Data Structures, OOP, Linux fundamentals, and problem solving, backed by internships and production-level software projects.

Education

Smt.Kashibai Navale College Of Engineering, Pune Nov-2022 - Jun 2026
Bachelor of Engineering (B.E) | CGPA: 7.79/10
Stream - Electronics And Telecommunication

Work Experience

| Cordon Technologies Pvt.Ltd , Pune Feb 2025 - June 2025

Web Application developer intern

- Built a full-stack Garage Management System using React.js, Node.js, Express.js, MongoDB, and Firebase, digitizing service records and job-card management.
- Developed responsive web and mobile interfaces with React.js and React Native, integrating REST APIs and real-time synchronization.
- Implemented authentication, backend APIs, and Firebase notifications, improving operational workflow efficiency.

Project Work

Prompter – AI Prompt Optimization Extension | Live

- Built a Chrome/Brave extension that transforms raw prompts into structured, development-ready prompts using Manifest V3.
- Implemented prompt rewriting, scoring, keyboard shortcuts, and inline UI injection using MutationObserver.
- Developed a React.js documentation portal and integrated backend-driven AI prompt enhancement.

WellNest – Digital Hospital Management System | Live

- Developed a Hospital Management System with Doctor, Patient, and Moderator portals using React, TypeScript, Node.js, and MongoDB.
- Implemented JWT authentication, role-based access control, and real-time dashboards.
- Designed and integrated REST APIs for appointment scheduling, patient management, and prescription workflows.

Real-Time Poll Rooms | Live

- Built a real-time polling platform using Socket.IO with instant vote synchronization.
- Optimized rendering performance using React.memo and efficient state management.
- Designed scalable event-driven communication to ensure low-latency updates across concurrent users.

Skills

Languages:C++, Python, JavaScript, SQL

Frontend & Backend: React.js, React Native, Tailwind CSS, HTML5, CSS3 , Node.js, Express.js, REST APIs

Cloud & DevOps:AWS EC2, Git, GitHub, Linux Basics, CI/CD Fundamentals, Render

Tools & Platforms: Postman, VS Code, Figma, Recharts,GitHub Actions

Concepts: OOP, Role-Based Access Control, Real-Time Systems, Event-Driven Architecture, Responsive Design , Agile/Scrum Collaboration

Achievements and Certificates

- Solved 100+ DSA problems across LeetCode, Neetcode, and TUF.
- Certified in AWS Cloud Practitioner Essentials | Oracle Cloud Infrastructure 2025 Generative AI Professional.
